That's fine with me.

Kind regards,

Matt

Apologies for brevity and grammar, tapping this out on the move.

**Subject:** Archiving CSDM03 Assignment 2

Hi Matt,

Could I archive the PDF / LaTeX source of my CSDM03 Assignment 2 submission on my website? I'd like to refer back to it in my literature review section of my thesis (writing about Luddite readings on AI inevitability), and for transparency I'd like to provide readers with the opportunity to interrogate the source; no worries if not. Tangentially, thrilled to find out Os Keyes has graduated from their PhD and is now doing a postdoc at UMass Lowell looking at AI usage in the military-industrial complex.

Best,  
Gen
